INTEGRATED MANAGEMENT SYSTEM POLICY

Taking care of our clients' health and the prestige of our Factory is the very foundation of our operations.

The Integrated Management System, which has been implemented at our factory, guarantees that our products are manufactured and controlled according to all Polish and European requirements, hence, ensuring their high quality, efficiency and safety of use. Our operations are distinguished by their high reliability, enterprise, speed and simplicity. This pursued policy confirms the factory Management's standpoint aimed at improving manufacturing conditions. Achieving this goal is guaranteed by proper work organisation and qualified personnel, who constantly are updating their knowledge by means of the varied training sessions held for all employees.

The quality policy is pursued by means of:
- observing the legal requirements concerning production of goods, environmental protection and H&S;
- striving to constantly improve the H&S conditions, preventing accidents at work and eliminating the risk of situations which may result in occupational injuries or diseases;
- improving qualifications and taking the role of employees and their commitment into account when deciding on actions designed to increase occupational health and safety;
- preventing natural environmental pollution and other hazards as well as ensuring proper waste management;
- maintaining good relations with suppliers, end-users and Clients on a partnership basis.

We undertake to meet all the requirements and constantly improve the efficiency of the Quality, Environment and H&S Management System, which is in conformity with the following standards:

The Senior Management of the company provide the resources necessary to maintain and improve the Integrated Management System and carry out the correct implementation of the procedures and ensure the efficient functioning of the whole company. The trust and respect in which we are held by our Clients confirm the effectiveness of our operations and serve as a source of motivation for the constant broadening and improvement of the Integrated Management System to meet even the most demanding requirements and expectations of our Clients.
